Sharon is my sister. The quality that I always admired was her kindness and quiet way. She was a great nurse and a role model which is why I chose to follow her into nursing. I miss her and regret our distance. We always think there's more time to reach out and unfortunately that is not the case. I love you, Sharon. Rest in peace in His arms. I know this sounds strange but go to the Rainbow Bridge and I have always thought that's where Gregory is, sitting on a bench welcoming God's furry friends.

“*Sharon was a good sister in law. Soft spoken voice I never heard her raise her voice. When she came to visit her mom and dad the kids like playing together Paula was on the shy side now Hank he could be a comedian He had every one in stitches Poor Joey was lucky to get a few words in. She loved Jim and the kids very much always had a smile. I just wish the family could get together more often ur all in my heart at this time hugs and prayers maybe some day will get together. Love ya*

Sharon was my best friend and my rock as a sister. I remember how we loved watching the Tom Jones Show every Thursday evening and my Mom would always say " You shouldn't be watching that man and his jirations!" But that didn't stop us! I also remember how lonely I felt when she left to marry Jim.I loved the happiness that shown in her eyes every time she gave birth...her children were her pride and joy. I miss you, Sharon. Til we meet again, may the Lord keep you at His side for now. I love you so.

Oh, I always enjoyed our many phone calls over the years, remembering the past, reveling in the present and having hope for the future. She had a way making the day brighter just hearing her voice. I see you in the presence of Christ and see your loving face smiling down giving peace to all of us missing you. Here's my smile right back at you!

“ Sharon was my Granny. On mornings where my siblings and I were with her (which was often), she'd always start our day with the same story of puppy dog Mazy stealing her peanut butter toast. I'd give anything to hear her tell it one more time. I love you forever, Granny
